

Northern gannets / European shags

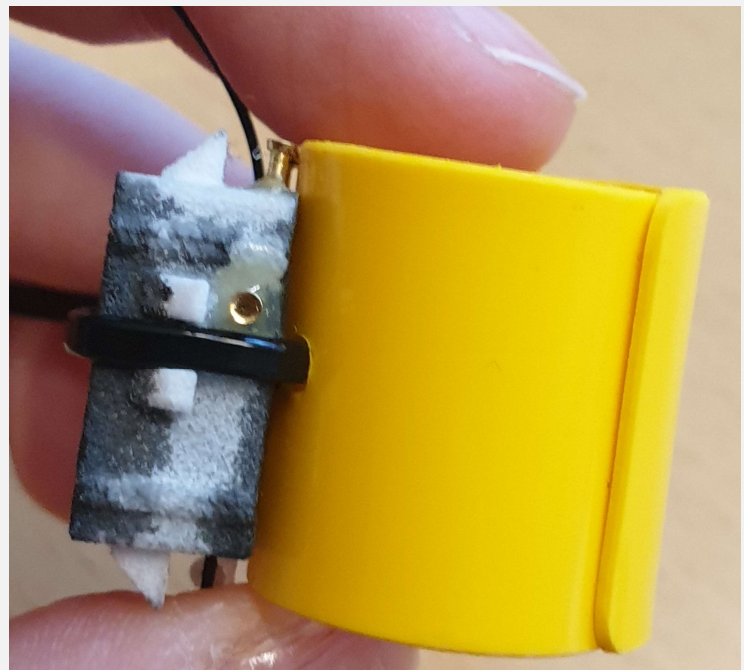

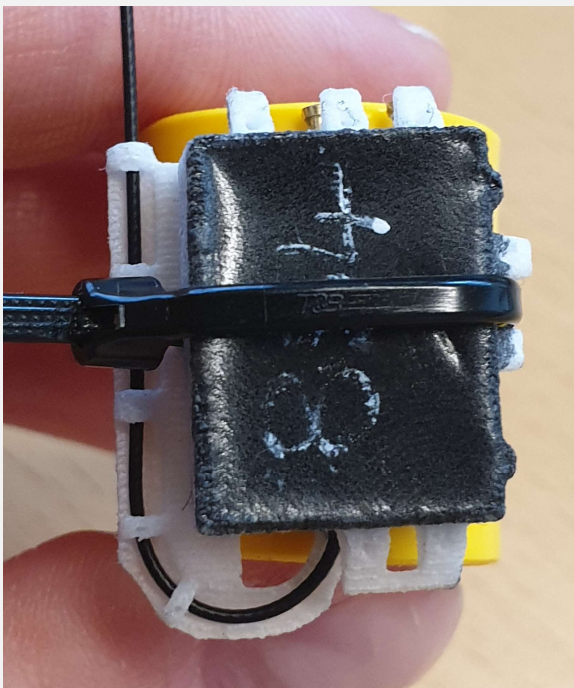

Variation a: 2x cable ties

IMPORTANT NOTE:

- for both variations 2 holes were drilled into the ring (approx. 1 cm apart)
- cable ties used were 2,4 mm wide and 92 mm long

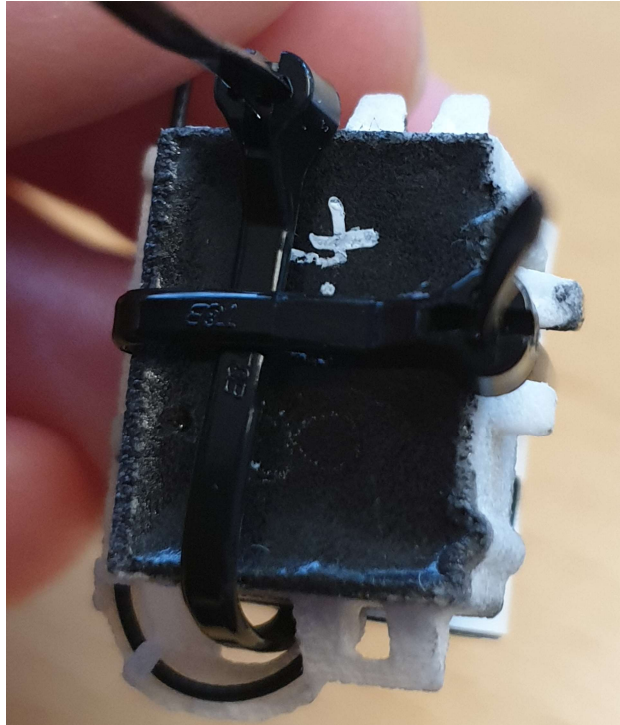

Variation b: 1x cable tie

All other species

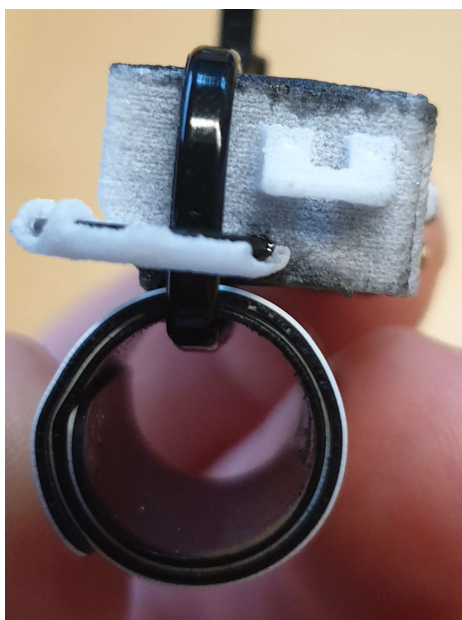

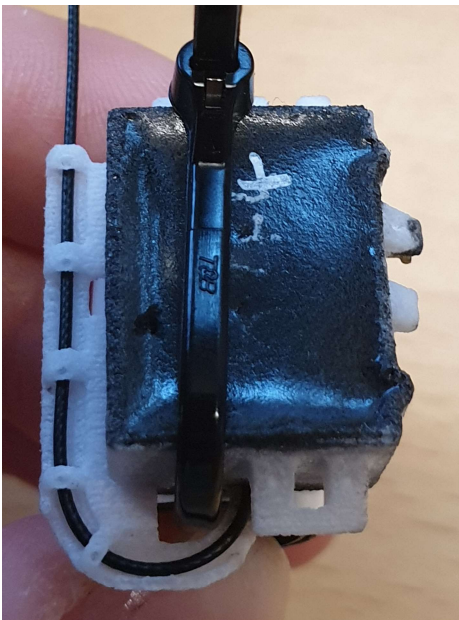

Variation a: 2x cable ties

IMPORTANT NOTE:

- no holes were drilled into the ring, but the cable ties were attached around the ring in variation a
- cable ties used were 2,4 mm wide and 92 mm long

Variation b: 1x cable ties

IMPORTANT

Please make sure to avoid putting pressure on the 3 pins on top of the device, i.e. do not force cable ties between the pins that are too wide!
